BRIDGING THE GAP BETWEEN EMPLOYERS AND TVET INSTITUTIONS

CEO of Synercon Group, **Mr. Jabbar Rahim Khan**, who also serves as Chairman of the Central Committee for Export for the Federation of Pakistan, delivered an insightful session on "Bridging the Gap Between Employers and TVET Institutions for Enhanced Workforce Preparedness" at the 5th-Day of International Regional Program.

Hosted by Navttcofficial, the session brought together international and national delegates to discuss strategies for improving workforce readiness and fostering collaboration between employers and TVET institutions.

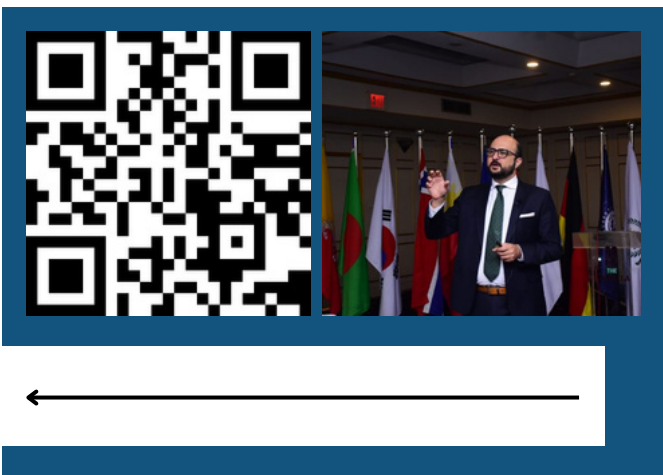

UPDATE ON INTERNATIONAL BUS TERMINAL PROJECT

In our latest KPEC meeting, we reviewed the Master Plan and Feasibility Study for the International Bus Terminal, set to link routes between Afghanistan and Pakistan. Key discussions included traffic and parking surveys, user interviews, SWOT analysis of terminal sites, and survey methodologies.

The session was attended by the Urban Planning & Policy Unit, KPEC Project Management Team, and consultants from OSMANI & Company Limited (JV) and BOTEK Bosphorus, who were led by **Dr. Irfan Ahmed Khan, Director of Synercon Group**.

We continue to focus on enhancing urban transport solutions and connectivity.

SYNERCON TECHNOLOGIES FEATURED IN THE NATION: UNPACKING THE CRISIS OF 17TH JULY WINDOWS OUTAGE

Following the major Windows outage on July 17, 2024, Synercon Technologies provides an in-depth analysis in our latest feature in The Nation. The article explores the chaos caused by a faulty update from CrowdStrike, revealing severe vulnerabilities that led to system failures and a 15% drop in their share value. This crisis emphasizes the need for robust governance, rigorous testing, and effective disaster recovery plans. As industries globally struggle with the fallout, the incident highlights the crucial importance of strong risk management strategies and comprehensive governance to protect our digital infrastructure. The analysis offers insights into immediate impacts and outlines key lessons for future cybersecurity and risk management improvements.

GOOGLE I/O EXTENDED CONFERENCE

At the recent Google I/O Extended Conference held at the S.M. Tanveer Auditorium, ICCI. Synercon's CEO, Mr. Jabbar Rahim Khan, along with the team, engaged in a range of enriching activities. The event, tailored for developers, entrepreneurs, and students, showcased inspiring stories from young innovators, offered engaging tech talks, featured hands-on workshops, and provided valuable networking opportunities.
