

### BUILDING STRONGER HEALTHCARE FOUNDATIONS FOR A HEALTHIER KHYBER PAKHTUNKHWA

Synercon Engineering, in collaboration with the **KPHCIP-Health** Department and our partner **G3 Consulting**, has conducted essential site surveys at multiple Rural Health Centers (**RHCs**) and Basic Health Units (**BHUs**) in Haripur and Nowshera districts. These visits are crucial for assessing site conditions, addressing potential issues, and aligning expectations for the execution phase of the project. Our goal is to ensure that all necessary preparations are in place for the successful completion of this transformative healthcare initiative. A special thanks to our partners: **Client: KPHCIP-Health, Partner: G3 Consulting, and Donor: World Bank**, as we work together to strengthen healthcare infrastructure and create lasting improvements for the communities in Khyber Pakhtunkhwa.

### COLLABORATION FOR A SUSTAINABLE FUTURE: ADVANCING GREEN DIGITAL SKILLS WITH HAZZA INSTITUTE OF TECHNOLOGY

**Synercon's CEO, Jabbar Rahim Khan, Director Wasim Kakakhel, and Team Lead Malik Javed** recently met with Hazza Institute of Technology's **Managing Director, Azhar Iqbal Sindhu**, to discuss potential collaborations aimed at advancing Green Digital Skills and promoting sustainable innovation. This partnership is set to focus on integrating digital solutions with sustainability, paving the way for a future where technology and eco-conscious practices go hand in hand. The discussions highlight a shared vision to drive innovation, foster sustainability, and build a more sustainable digital ecosystem.
